

mTERF Antibody

Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP51875-100 □

Specification

mTERF Antibody - Product info

Application	WB
Primary Accession	Q99551
Reactivity	Human, Mouse, Rat
Host	Rabbit
Clonality	Polyclonal
Calculated MW	39 KDa

mTERF Antibody - Additional info

Gene ID 7978

Other Names

Transcription termination factor 1, mitochondrial,
Mitochondrial transcription termination factor 1, mTERF,
mTERF1, MTERF1, MTERF

Target/Specificity

KLH conjugated synthetic peptide derived from human mTERF

Dilution

WB~~ 1:1000

Format

0.01M PBS, pH 7.2, 0.1% Sodium azide, Glycerol 50%

Storage

Store at -20 °C. Stable for 12 months from date of receipt

mTERF Antibody - Protein Information

Name MTERF1

Synonyms MTERF

Function

Transcription termination factor. Binds to a 28 bp region within the tRNA(Leu(uur)) gene at a position immediately adjacent to and downstream of the 16S rRNA gene; this region comprises a tridecamer sequence critical for directing accurate termination. Binds DNA along the major groove and promotes DNA bending and partial unwinding. Promotes base flipping. Transcription termination activation appears to be polarized with highest specificity for transcripts initiated on the light strand.

Cellular Location

Mitochondrion.

mTERF Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [□Western Blot](#)
- [□Blocking Peptides](#)
- [□Dot Blot](#)

mTERF Antibody - Background

Transcription termination factor. Binds to a 28 bp region within the tRNA(Leu(uur)) gene at a position immediately adjacent to and downstream of the 16S rRNA gene; this region comprises a tridecamer sequence critical for directing accurate termination. Binds DNA along the major groove and promotes DNA bending and partial unwinding. Promotes base flipping. Probably requires one or more components for termination activity.
